

We export agricultural primary products
We provide services of added value

The background of the page is a high-quality photograph of various legumes. On the left, a wooden bowl is filled with white beans. In the center, a wooden spoon holds chickpeas. At the bottom right, another wooden spoon is filled with lentils. The legumes are scattered on a rustic, weathered wooden surface.

The company

MATRES FOOD is a young Argentinian company, with strong commitment to work, led by professionals with extensive experience and professional recognition in the agricultural markets and Foreign Trade.

We specialize in the international commercialization of agricultural specialties. Established in the city of Rosario, our strategic location in the largest agro-export hub in the world, allows us to interact strongly with customers and suppliers.

Outsourcing of foreign trade

We provide specialized services for the management of imports and exports, for SMEs that have intentions to internationalize, as well as for those who currently operate with foreign markets.

Our proposal is to act as an External Department of Foreign Trade, offering highly trained human resources, with great expertise in the technical and commercial management of impo and expo operations, achieving the highest efficiency and functionality, in the most cost effective way.

Our work begins with a consultancy focused on a diagnosis and assembly of a Business Plan, the facilitation of all the necessary inscriptions, continuing with the integral management of the operations of export and / or import.
